The Municipal Technical Advisory Service What We're All About

Consulting firms specializing in municipal government are nothing new, but there's nothing else in the country quite like MTAS. The University of Tennessee's Municipal Technical Advisory Service has been around since 1949, on call for Tennessee cities and towns. As our name implies, MTAS is a technical assistance provider and we've got consultants who specialize in most areas of municipal operations.

How did MTAS get started? The Tennessee Municipal League, the lobbying arm for the state's cities and towns, turned to the General Assembly and asked for technical help for its members. And the league wanted that help to be independent of politics. The result was MTAS, now an agency of The University of Tennessee's Institute for Public Service. MTAS is funded by a direct state appropriation and with a portion of the local share of the statewide sales tax. Thus, almost all MTAS services are pre-paid; our cities don't get a bill.

MTAS annually completes more than 1,000 municipal management projects and averages about 13,000 other services each year. In a two-year period, MTAS extended a helping hand in all but eight of Tennessee's 341 cities and towns. While university-based, MTAS consultants don't get involved in academic research and teaching; practical technical assistance is our job.

One reason MTAS services are so valuable to Tennessee cities is because our consultants are backed up by the most accurate and recent information available. That information comes from the MTAS library, the most comprehensive collection of municipal-related material in Tennessee and one of the most extensive in the country. Any municipal official may call on the professional library staff to look up just about anything. The librarians also have access to MTAS' vast database on Tennessee cities and will gladly print out, for example, the names and addresses of all public works directors in cities with populations of less than 5,000. The library also handles surveys; at a city official's request, a librarian will call several city halls for specific information. While not scientific, the surveys give a good idea of what other municipalities are doing.

MTAS is nothing short of a publishing house, printing scores of documents annually to keep Tennessee cities informed. *Hot Topics* are printed quickly and mailed first class when important news breaks. *Technical Bulletins* explain in-depth new regulations or actions cities should take. And then there are the one-of-a-kind publications: the 88-page *Purchasing Guide for Tennessee Municipalities*, or the 62-page *A Look at the Americans with Disabilities Act: A Guide to Compliance for Tennessee Local Governments*, or the comprehensive *Tennessee Municipal Handbook*. A publications catalog is printed annually.

Yet it's the consultants who make MTAS tick. At least one of them has some experience in nearly every municipal issue.

- **Management** - These professionals are usually a city's first contact with MTAS. They're assigned a specific geographic area and are familiar faces in their city halls.
- **Finance and Accounting** - MTAS number crunchers help cities manage their money and develop new revenue sources. If it has to do with accounting, purchasing, budgeting, or debt service, they've got the solutions.
- **Law** - Our law consultants research hundreds of questions monthly and send cities written opinions. They also prepare and revise charters and draft ordinances and resolutions. One attorney heads up a team that produces municipal codes.
- **Public Works** - Streets, drainage, solid waste, wastewater, water treatment. Whatever a municipal public works department handles, someone at MTAS handles, too.

- **Personnel** - From job descriptions to an in-depth annual survey of municipal salaries, MTAS' personnel consultant helps cities manage their most important resource.
- **Communications** - Reaching citizens with good information is a high priority for local government today. The communications consultant can help -- with the media, with publications, or with other outreach methods.
- **Fire** - Whether the question is where to build a fire station or how many firefighters are needed per shift, MTAS' fire management consultant knows the answer.
- **Special Projects** - One consultant tackles an issue at a time -- new federal cable television regulations, for example -- and answers questions thoroughly and fast.

Here's how to reach the MTAS consultants nearest you:

Appendix B

Tennessee Municipal League

The Tennessee Municipal League (TML) is an organization that works closely with MTAS to provide general improvement and advancement of municipal administration in Tennessee. It is an organization governed by a board of directors of municipal officials, who provide oversight and direction to league policies and programs. TML has a full-time staff of 37 employees. Their offices are located in Nashville near the State Capitol.

TML works with both municipal officials and state lawmakers to ensure that the interests, rights, and privileges of municipalities are safeguarded. TML also monitors state and federal legislation that could impact city governments. TML stimulates communications among city officials by holding an annual conference for discussion of current municipal affairs, and by publishing a semi-monthly newspaper, *Tennessee Town and City*, that has a statewide circulation.

In 1979, the Tennessee Municipal League expanded its operation to include risk management with the establishment of the TML Risk Management Pool. The purpose of the pool is to provide reasonably priced insurance coverage for cities and towns that may have had difficulty obtaining insurance coverage. It also assists cities in developing a risk management program as a means of decreasing claims and premiums.

In 1985, the Tennessee Municipal League Board of Directors, in response to the interest expressed by its members and the recommendations of a special study committee, authorized the creation of a pooled financing program for cities and towns in Tennessee. The Tennessee Municipal Bond Fund was established to provide low-cost medium-term financing to municipal governments for capital projects.

The University Of Tennessee

The University of Tennessee extends from the banks of the Mississippi to the mountains of upper East Tennessee.

Four Campuses - at Chattanooga, Knoxville, Martin, and Memphis, a graduate engineering program at Tullahoma - and two statewide institutes - agriculture and public service - extend UT to within easy reach of all Tennesseans. The University is a higher education "system" with a president headquartered in Knoxville and chancellors and vice presidents in charge of the campuses and institutes.

UT is one of the nation's oldest higher education institutions, tracing its beginnings to the founding of its forerunner, Blount College, in 1794 - two years before Tennessee became a state. The first coeducational college in the nation, Blount College became East Tennessee College in 1807, East Tennessee University in 1840, and The University of Tennessee in 1879. The University was designated as Tennessee's federal land-grant institution in 1869.

Institute For Public Service

The Institute for Public Service extends UT beyond the boundaries of its academic campuses. The Institute's primary goal is to help Tennessee cities and counties, state government, and small industries. This help is provided through technical assistance and training programs, as well as through state-of-the-art information services such as teleconferences and video production.

Principal divisions of the Institute for Public Service are:

- Municipal Technical Advisory Service, which helps cities;
- County Technical Assistance Service, which helps counties;
- Center for Government Training, which conducts training and professional development activities for city, county, and state government employees;
- Center for Industrial Services, which helps small business and industry; and
- Center for Telecommunications and Video, which uses satellite communications and video production to deliver information to statewide and national audiences.

State, Federal, And Other Organizations

Municipal governments do not operate in a vacuum, but rely on many outside sources for information and direction. These outside sources include county and federal offices, state agencies, and various other government entities.

Following is a section of the *Directory* that lists various state government agencies, including most departments and commissions; federal offices; and other agencies. The list includes the name of a contact person in the agency, an address, and a phone number.

For information on Tennessee County Officials, see the current *Directory of Tennessee County Officials*, published by The University of Tennessee, County Technical Assistance Service.

**County seat

The University of Tennessee does not discriminate on the basis of race, sex, color, religion, national origin, age, handicap, or veteran status in provision of education opportunities or employment opportunities and benefits.

The University does not discriminate on the basis of sex or handicap in its education programs and activities, pursuant to requirements of Title IX of the Education Amendments of 1972, Public Law 92-318, and Section 504 of the Rehabilitation Act of 1973, Public Law 93-112, and the Americans With Disabilities Act of 1990, Public Law 101-336, respectively. This policy extends to both employment by and admission to the University.

Inquiries concerning Title IX, Section 504, and the Americans With Disabilities Act of 1990 should be directed to Gary W. Baskette, director of business services, 109 Student Services and Administration Building, Knoxville Tennessee 37996-0212, (615) 974.6622. Charges of violation of the above policy should also be directed to Mr. Baskette.

Authorization No. E14-1050-00-009-94
